Education

Master of Computer Applications KIET Group of Institutions	2024 - 2026 Ghaziabad, UP
Bachelor of Computer Applications (75.97%) S.D. College of Management Studies	2021 - 2024 Muzaffarnagar, UP
Senior Secondary (75.6%) L J P S V M Inter College (UP Board)	2021 Muzaffarnagar, UP
Secondary (84.33%) L J P S V M Inter College (UP Board)	2019 Muzaffarnagar, UP

Skills

Programming & Development: Java, C, C++, JavaScript, HTML5, CSS3, SQL, MySQL

Frontend Technologies: React.js, Tailwind CSS, Bootstrap, Responsive Design

Tools & Platforms: Git, GitHub, VS Code

Soft Skills: Problem Solving, Team Collaboration, Code Review

Experience

Web Developer Intern Codec Technologies	June 2025 - July 2025 Tech Stack: HTML, CSS, JavaScript, React.js
- Engineered 5+ reusable React.js components for admin dashboards and client portals, reducing development time by 30%. - Integrated REST APIs to build dynamic, data-driven web application features, improving data accuracy and responsiveness. - Resolved 15+ bugs through structured debugging and code reviews with senior developers, enhancing application stability.	

Projects

AI-Powered Document Assistant C++, Ollama, HNSW, REST API	Apr 2026 - June 2026
- Architected an AI-powered document assistant with 3 search algorithms (HNSW, KD-Tree, Brute Force) and 3 distance metrics, achieving sub-100ms response time. - Built a C++ vector search engine indexing 768-dim embeddings via Ollama LLM, enabling semantic search over 20+ documents. - Designed RESTful APIs for document ingestion, vector indexing, and AI Q&A; integrated an interactive web UI with real-time algorithm comparison.	
Deep Packet Inspection System C++, PCAP, Multi-threading	Nov 2025 - Dev 2025
- Built a multi-threaded DPI engine in C++ with 2 Load Balancers + 4 Fast Path threads to parse and filter live PCAP network traffic. - Implemented 4-layer protocol parsing and Five-Tuple flow tracking to maintain stateful TCP/UDP connection records across all packets. - Extracted SNI from TLS Client Hello to classify 10+ applications and enforced IP, app, and domain-based blocking rules with filtered PCAP output.	

Awards & Certifications

- Cybersecurity  Cisco Networking Academy (May 2025): Network security, threat analysis, vulnerability assessment, and secure system design.
- Python Essentials 1 & 2  Cisco Networking Academy (May 2025): Python programming, OOP, data structures, functions, and file handling via hands-on projects.
- Introduction to Artificial Intelligence  LinkedIn (Apr 2025): Machine learning, neural networks, NLP basics, and real-world AI application design.
- AWS Cloud Foundations  AWS Academy Graduate (Apr 2025): AWS core services (EC2, S3, IAM), cloud architecture, security, and billing management.
